# The Akashic Record

Seminars and Sessions with Stefan Berns

Dates 2018

## Universal Wisdom – Reading

### Akashic Record Seminar - Part 1

In this seminar, it's all about tapping into the morphogenetic fields of the Akashic Records to select and transmit relevant information. Science refers to these morphogenetic fields, which include information from every time period and from all dimensions.

In general, these fields are known as the Akashic Records. Everything you need to access the Akashic Records already exists within you. In our seminar, you learn to tap into this knowledge and make it available for you and your clients.

Seminar Topics: Feeling and Establishing the Connection to Morphogenetic Fields / Implementing Systemic Constellations / Gatekeepers and Guards / Energetic Self-Purification / and more.

## Universal Wisdom – Healing

### Akashic Record Seminar - Part 2

In the „Universal Wisdom Seminar - Healing“ you will learn skills as a healer. You learn information for healing and transformation by reading the Akashic Records. Through energetic healing, astonishing healing results are possible and often exceed our imagination. The prerequisite is participation in the previous „Universal Wisdom Seminar - Reading“.

Seminar Topics: Aura Cleansing / Opening the Third Eye / Purification / Activating Self-Healing Powers / Restoration of the Subtle Primordial Matrix / Spiritual Distance Healing / Ethical Principles / Energetic Self-Protection

## Reincarnation and Regression Sessions

### Returning to Birth and Past Lives

Everything in our life has a meaning, nothing happens by chance. Often, it's only later that we realize and understand the true circumstances of the events we encounter.

Connecting to regressions (returning to the earliest memories in this life) and reincarnations (going back to previous lives) are an important part of spiritual healing work and transformation. It gives the ability to discover and treat causes of diseases and uncover problems. Through this, we recognize karmic connections from past lives and find a new, clear perspective in our present life.

In each reincarnation session there is the possibility of returning to our birth and going even further back to previous lives and time periods.

It can reveal the causes of diseases and problems. The causes of these blockages, traumas, allergies, fears and compulsions are recognized and can then be healed. And when desired, the client is able to acknowledge and understand their own life story.

## Akashic Reading and Healing Sessions

### What you always wanted to know about yourself, your partner, employees and clients!

By tapping into the Akashic Records, it is possible to obtain information of any kind.

Science speaks of morphogenetic fields that surround us energetically, know as the Akashic Records or the Zero Point Field. These fields contain all the information from all ages and dimensions.

No matter in which area of life you search for support and information, there is an answer to almost every question!
